SPA MENU

*Treat yourself to the most
beautiful moments and bathe
your body, mind and soul
in inner harmony every day.*

SARAH BERNHARDT

Truly sensual pleasures await you in our spa landscapes, where you can relax your body, mind and soul like never before. Let yourself be pampered and surprised by our lovingly designed environments and an ambience inspired by magical fantasies.

Since beauty is always an expression of inner balance, we use soft colours and lighting effects to create the perfect atmosphere at our Beauty Farm. High-quality products as well as refined treatments and massages for your face and body help not only achieve more balance in your soul but also your body.

Our Fit & Fun House also helps you on this path: you can not only train under expert guidance, but also (re)discover the joy of movement.

#MY ALPINE LIFE BALANCE

MY SPA BALANCE CONCEPT

Just as nature in the Alps always strives towards balance, we humans do too. But individual expectations of balance differ as much as each person's needs. And of course, the same goes for our journeys. Then again, wants and desires may change along the way. They change with the seasons, because of current mental states or simply based on spontaneous moods. That's why it's so important to find your own path to personal wellbeing.

For all these reasons, Best Alpine Wellness Hotels has designed a spa concept that draws on the power of the mountains to show you the way while still giving you the freedom to choose. With various treatments and packages labelled with symbols to indicate their effects. The wave, for example, denotes a cooling, freeing treatment. The mountain stands for an activating, releasing treatment. The circle is a symbol of the combination of sport and spa at any time of year. So we invite you to: choose for yourself!

BALANCE ALPINE¹⁰⁰⁰⁺ 

With the primordial power of the Alps

With Balance Alpine 1000+, Best Alpine Wellness Hotels offers you an exclusive collection of products that harness the primordial powers of the Alps. Extracted from natural mountain herbs, they combine the latest science with the knowledge of Traditional European Medicine to produce spagyric herbal essences. The results are unique, beneficial creams, oils and lotions to treat the face and body, supplying the skin with deep care to rebuild and naturally express your individual beauty the natural way.

The special secret behind Balance Alpine 1000+ products stems from organically grown mountain herbs alongside natural recipes and gentle production methods steeped in the knowledge of almost forgotten Traditional European Medicine. Both take a holistic attitude towards the human being with the aim of reinforcing self-healing powers at a physical, spiritual and mental level, creating a balance between skin, muscles and spirit – according to the Paracelsus principle.

Dandelion

Dandelion has a cooling effect on overstrained muscles, and supports healing from inflammation. It is cooling, soothing and cleansing.

Angelica

Angelica supports regeneration and has a generally revitalising, strengthening but also harmonising effect. It increases energy and vitality.

Wild thyme

Thyme intensively warms and treats the airways and joints. It is warming, activating, rejuvenating and stimulating.

Yarrow

Yarrow strengthens the connective tissue, reduces strain and strengthens the veins. It is also calming, antispasmodic, regulating, balancing and soothing.

With the essence of Alpine mountain herbs for inner balance

EXPERIENCE THE REVITALISING EFFECTS OF A BALANCE ALPINE 1000+ TREATMENT.

Spa etiquette

Your appointment

Your treatments are all about you. Our spa specialists are completely focused on you and your needs. So that we can fulfil your appointment requests, we recommend that you book your treatments in good time – ideally with your room reservation.

A treatment to suit what you want

Talk to our trained therapists about your wishes and any health-related aspects that need to be considered. Providing us with information about possible impairments, allergies, medications or pregnancy allows us to put together the optimal spa programme to suit you.

Your spa specialists

Of course, it's entirely up to you if you would prefer to be treated by a female or male therapist. Please let us know your choice when you book your appointment. We will do our best to fulfil your request.

Completely undisturbed

You're looking for rest and relaxation for the body, mind and soul. This atmosphere of calm and relaxation should not be disturbed by loud conversations or mobile phones. We therefore ask our guests to use their phones only in the areas outside the Vitality Temple and House of Senses. Out of respect for other guests, the spa area is a no-smoking zone. For hygiene reasons, bringing food and drink into the spa area is not permitted.

OUR TIP:

Enjoy our special selection of herbal teas, water and dried fruits available in the spa and bathing area.

Relaxed harmony

Get in the mood before your treatment with a visit to our relaxation oasis. A pleasant shower or a visit to the sauna are excellent ways to prepare for your treatment. Please arrive at the vitality or beauty reception at the Fit & Fun House around 10 minutes before your treatment appointment. We ask for your understanding that late arrival may lead to a reduction of your treatment time out of consideration for the next guests.

When something comes up

We hope you understand that we have to charge 50% of the price if you cancel your treatment at short notice. Cancellation up to 12 hours in advance is free of charge.

Generosity is key

We have ensured that enough loungers and relaxation spots are available for our guests. We therefore ask you to refrain from reserving loungers.

Your valuables...

... are best kept in the safe in your room. We cannot take responsibility for lost valuables.

For our little guests

You are welcome to use the wooden sauna in the residence garden and, of course, the swimming pool with your children. Otherwise, we kindly ask you to bear in mind that children under the age of 14 are not permitted in the sauna and relaxation areas.
